International students in Australia

You can continue to study remotely if you as an international student studying in Australia have decided to return to your home country. You must however ensure that your course allows you to study from your home country. If unsure, speak with your trainer and The Academy.

When studying from overseas, you need to actively participate in learning activities via our virtual learning platform.

You may also take leave of absence if you choose to return home by deferring your course. You must however complete "**COURSE DEFERRAL FORM**" and submit evidence of compassionate and compelling circumstances.

You should be aware of any possible restrictions or risks with returning to home countries, as well as the [Australian Government's](#) travel advice and restrictions, which may prevent you from returning to Australia. For any visa enquiries you can also refer to the [Department of Home Affairs](#) website.
